

Scott H Miller CPA

We do have excellent experience with the program and still employ a student that originated out of the intern program at Scottsdale Community College, who has worked for us 25-30 hours per week continuously since hire.

We are a small, three person 30 year CPA firm located at Hayden and Via De Ventura in Scottsdale. We would be looking for someone with strong computer skills, accounting and quick books experience and the desire to learn. A reasonable level of understanding of the tax return process would be helpful but not an absolute requirement as long as the individual has a strong desire to learn this side of the business.

We would be flexible with hours around a school schedule. The right individual would end up doing some bookkeeping on quick books, some light individual income tax and perhaps some business tax depending on the level of accounting experience. There would also be some CPA firm administration and assistance with IRS correspondence and similar items.

Probably would be interested in meeting potential students in December with a start date in January if possible.

If you are interested in applying for this internship, please email a cover letter and resume to Cynthia.gemberling@scottsdalecc.edu.
